## Product data sheet

### Part number 203000

1. **Colours:** - Black, brown, blue, green, orange, pink, red, silver, white, yellow.
2. **Materials:** - A blend of waxes, fillers and various pigments.
3. **Flash-Point:** - In excess of 190c.
4. **Presentation:** - In stick form, approximately 110mm x 25mm x 15mm. Packed in bags each containing 14 sticks or alternative methods, by special arrangement.
5. **Storage:** - Preferably (off the floor) in a cool, dry store, isolated from flames and sources of heat.
6. **Solubility:** - Insoluble in water. Where Auto 4 crayons are to be used in permanently wet situations, the manufactures guidance should be sought, in respect of clarity and permanency.
7. **Health & safety:** - Auto 4 industrial marking crayons can be regarded as non-toxic. It is only necessary for them to be stored, handled and used, in accordance with good industrial hygiene practice.  
If in prolonged contact with the skin, use a propriety hand- cleaner, followed by water and mild soap. People with sensitive skin should take the precaution of using barrier cream and wearing protective gloves.  
If ingested, medical assistance should be sought. In the event of contact with the eyes, wash with a copies amount of water and seek medical medical aid.
